## De trompet

Net als de hoorn is de trompet (**laten zien**) een gebogen metalen buis met aan het einde de beker. Bij de trompet wijst die recht vooruit zodat hij het geluid direct de zaal in stuurt. Ook op een trompet zijn er maar drie knopjes om alle verschillende toonhoogtes te kunnen kiezen. Het geluid van de trompet is heel helder en zeker in het hoge register klinkt hij soms best wel brutaal en soms een beetje schel. Maar voor het spelen van een mooie solo is de trompet natuurlijk een ideaal instrument.
