

Print advice

This music can best be printed on paper of A3 size. All pages of the PDF manuscript have A4 size. For eight pages two double side printed A3 sheets are required. The printer settings should be:

Paper size: A3

Mode: Booklet

When no A3 paper size is available (297 x 420 mm) choose one with about the same dimensions and add in the printer menu “Fit paper size”.

The page sequence in the PDF manuscript has been chosen to result in a properly readable manuscript when the A3 pages are folded along the middle of the long side of the sheets. That leaves you with two possibilities where only one is correct 😊
